# Considerations and Details

- If approved the cooperative teams would be in place for the 2022-23 and 2023-24 school years.
- Each cooperative team would be evaluated at the end of their respective 2023-24 season for participation numbers from each school.
- If participation numbers have increased to allow for independent teams at each school, the cooperative team agreement will not be renewed.
- Girls Softball is still under consideration for possible future vote.
- Coaching will be posted and interviewed.
- Could lead to other opportunities (Bowling, Fishing, Girls wrestling)
